WORKING HAND-IN-HAND WITH THE CHILD WELFARE COMMITTEE (CWC)

At Sanrakshan, every child is placed through the Child Welfare Committee (CWC) based on clear criteria of need and vulnerability. This legal process ensures children receive protection, care, and dignity. We support each child with an Individual Care Plan, provide regular updates to the CWC, and coordinate family reunification or aftercare as they turn 18—ensuring every child not only finds safety but also a path to thrive.

This initiative has strengthened our team's ability to provide transparent, accountable, and high-quality care for every child.

Holistic Child Development through Learning & Creativity

ART & CRAFT SESSIONS

Our little ones lit up the space with colour and imagination during guided art and craft sessions! While sharpening their fine motor skills, they also found a joyful outlet for self-expression—proving once again that art has the power to heal, uplift, and inspire.

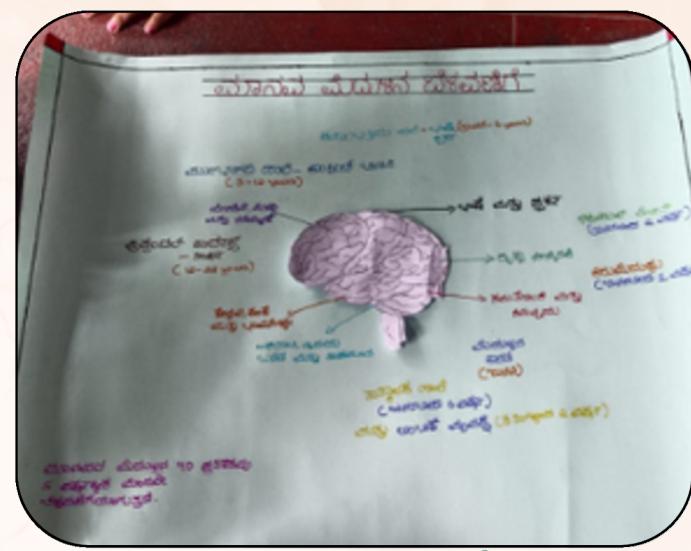

UNLOCKING THE POWER OF THE MIND

At Sanrakshan, we believe that knowledge is the first step toward empowerment. In a recent hands-on session on Human Brain Development, our children explored how the brain shapes their thoughts, emotions, and actions. Through fun demonstrations and guided discussions, they discovered the science behind memory, decision-making, and coordination.

This activity wasn't just educational—it was transformative. It ignited curiosity, built confidence, and emphasised the importance of brain health for lifelong well-being.

With continued donor support, we aim to expand such impactful learning experiences that spark wonder and foster holistic development in every child we care for.

Led by Program Director Ms. Suma Bhavana, this session focused on empowering our staff—an integral pillar of the organization—by introducing them to smart digital tools like ChatGPT, Napkin AI, and practical Excel tips. By building their digital skills, we're investing in their efficiency and enabling them to drive our mission forward with greater impact.
